AI RECEPTIONIST

Who answers your phone when you're busy?

It answers every call, day or night, captures the job and sends it straight to you. So the work doesn't go to a competitor.

Example call summary, sent by SMS and email

44%

of calls to businesses never reach a person.[1]

69%

of callers who reach voicemail hang up without leaving a message.[2]

24/7

Answered nights, weekends and holidays, with no busy line.

Every missed call is a job someone else gets. You can't pick up while you're with a customer, on a job or asleep, and voicemail doesn't save it: most callers hang up and ring the next business.

What changes with your AI receptionist

- ✓ **Never lose an after-hours lead**
  Every call answered in your business name, 24/7.
- ✓ **Callers get real answers**
  It knows your services, areas, hours and prices, from your website and notes.
- ✓ **Every job is captured**
  Name, number, address and the job, sent to you by SMS and email.
- ✓ **Urgent calls still reach you**
  It transfers live to you or your team when a caller needs a person.
- ✓ **Nobody waits on hold**
  It takes several calls at once, even at your busiest time.
- ✓ **It speaks your callers' language**
  English, Arabic and Urdu, switching when the caller does.

Hear it for yourself. Reply "yes" to my email and I'll send a 60-second recording of it answering a call.

Live in 3 simple steps

1

We build it
From your website and a 15-minute chat. No tech work for you.

2

You test it
Ring it yourself. We tune every answer until you're happy.

3

You go live
Forward calls when you're busy or after hours. Keep your number.

Costs less than every other way to answer your phone

	Hire a receptionist	Answering service	Your AI receptionist
Cost	A full-time salary, plus leave and cover	A monthly fee plus per-call charges	**About US$0.45 a call. Nothing when it's quiet.**
Hours	Business hours	Depends on the plan	**24/7, every day**
Knows your business	Yes, once trained	Usually just takes a message	**Yes, answers from your own information**
Calls at once	One	Shared operators	**Several**

Simple pricing: pay only for the minutes you use

US$0.15 a minute

About US$0.45 for a typical 3-minute call.

100 calls a month is about US$45, less than a single booked job pays you.

No monthly plan · No minimum · No lock-in contract

Included

- ✓ Your own local phone number
- ✓ Call summaries by SMS and email
- ✓ Live transfer to your team
- ✓ SMS follow-up to callers
- ✓ Online inbox with every call
- ✓ English, Arabic and Urdu

Done-for-you setup: we build, test and tune it for your business, quoted after a short call. Prices exclude local taxes.

Hear it answer a call

Reply **"yes"** to my email and I'll send you a 60-second recording. Then we set yours up.
